Formål med materialet

I dette opgavehæfte arbejdes med **forlyde**, som er den første lyd i et ord. Ved at fokusere på forlyde lærer eleverne at isolere og identificere det første fonem i et ord – fx at høre at sol, sø og slange alle starter med /s/.

Evnen til at skelne og navngive forlyde er en central del af den fonologiske opmærksomhed og et vigtigt skridt på vejen mod sikker lydsyntese og læsning. Arbejdet med forlyde gør det lettere for eleven at forbinde lyd og bogstav og lægger et solidt fundament for senere afkodning og stavning.

Materialet er en del af **Kluddermors Lydkursus**, som er udviklet med henblik på at styrke elevernes funktionelle bogstavkendskab. **Lydkurset består af i alt 12 hæfter**, hvor eleverne arbejder med rimord, sammensatte ord, stavelser, bogstavlyde, rimanalogi, forlyde, lydsyntese, ord på to-tre bogstaver og fonemmanipulation gennem kreative tegne- skrive- klippe- og limeaktiviteter.

Målgruppe

Elever som arbejder med det første kendskab til forlyde, og som har brug for at træne fonologisk opmærksomhed.

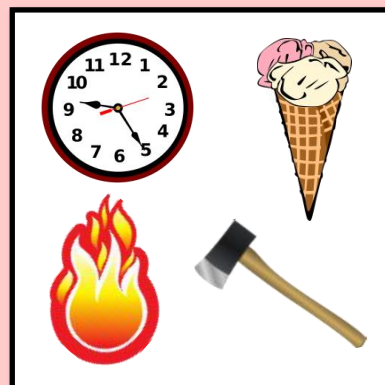

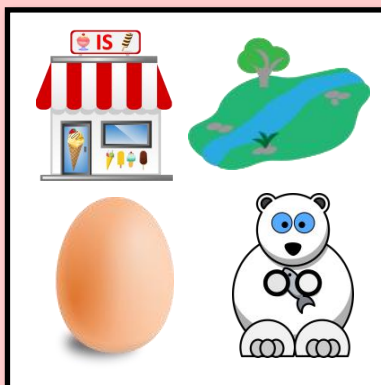

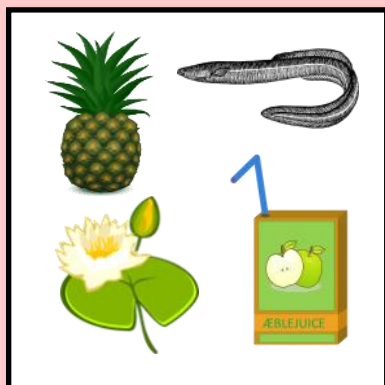

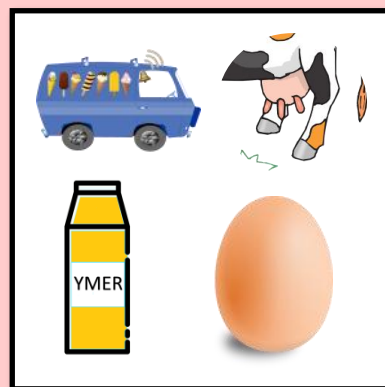

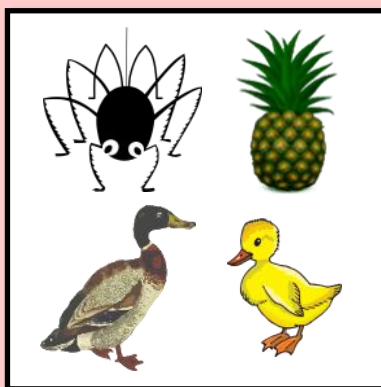

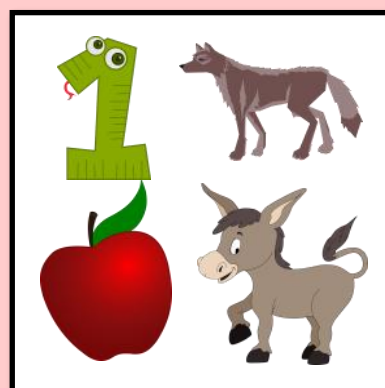

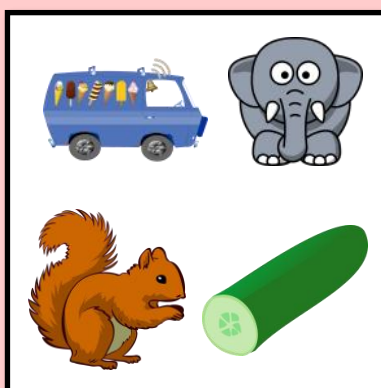

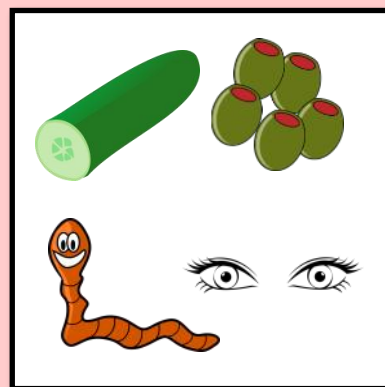

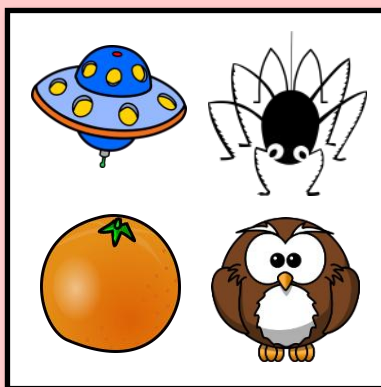

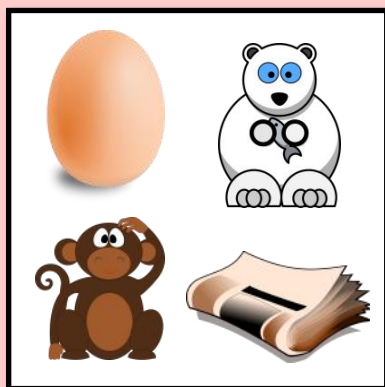

Materialet henvender sig til elever i 0. og 1. klasse, samt specialundervisningen, og er velegnet til stationsundervisning, selvstændigt arbejde eller mindre elevgrupper med behov for ekstra støtte.

Anvendelse

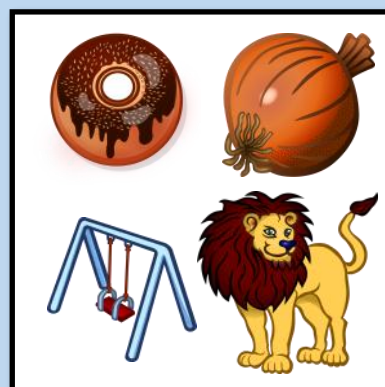

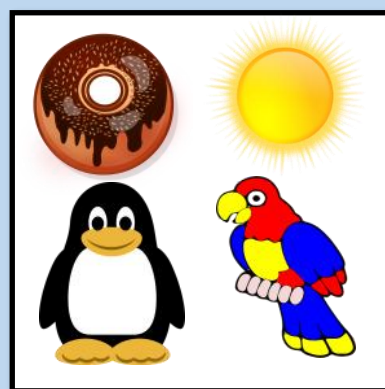

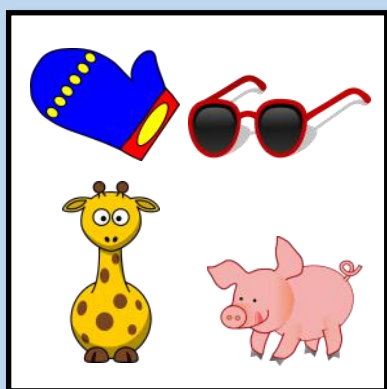

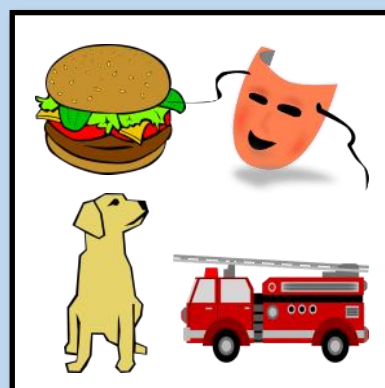

Print ud i så mange sæt du behøver, sæt papirerne i mapper og du er klar med dit nye materiale. Lad eleverne arbejde selvstændigt eller to og to.

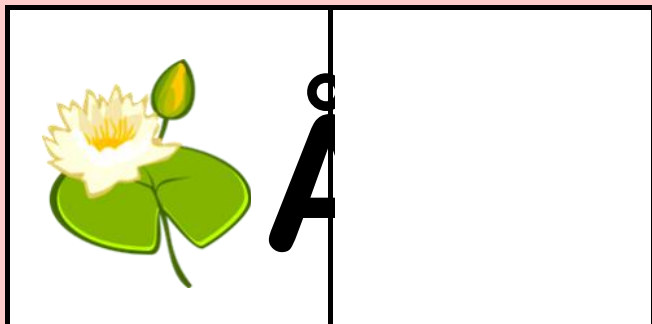

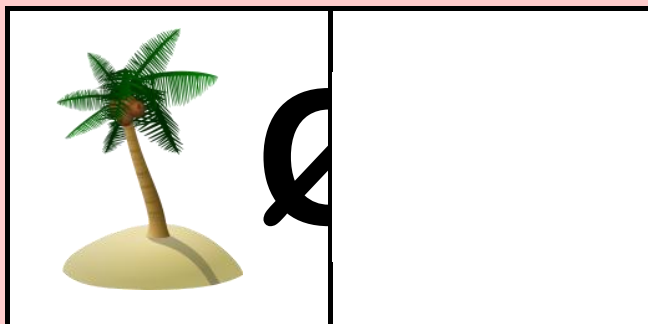

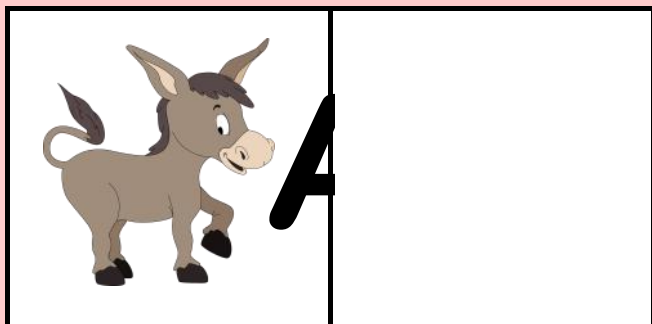

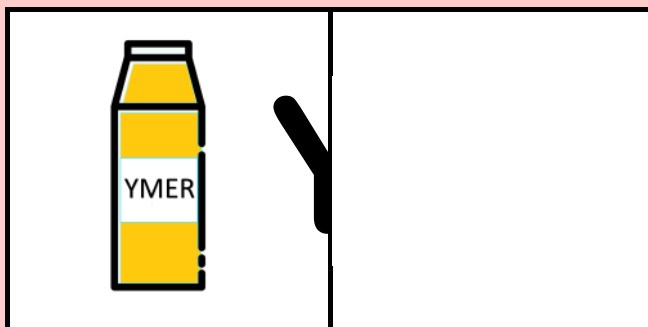

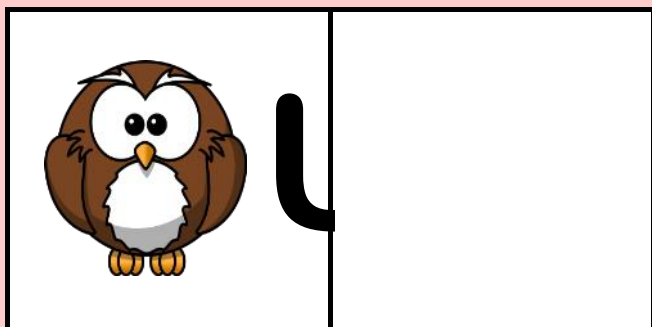

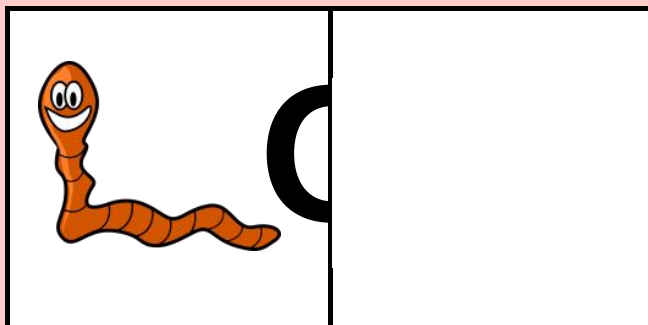

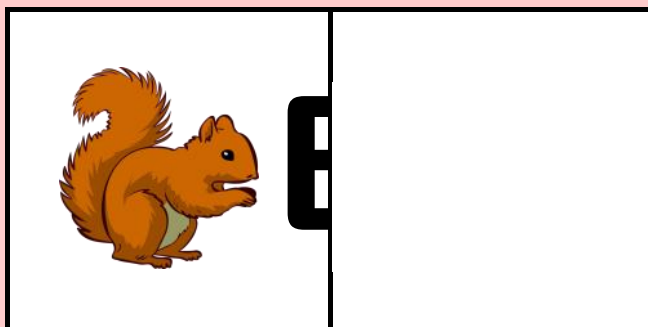

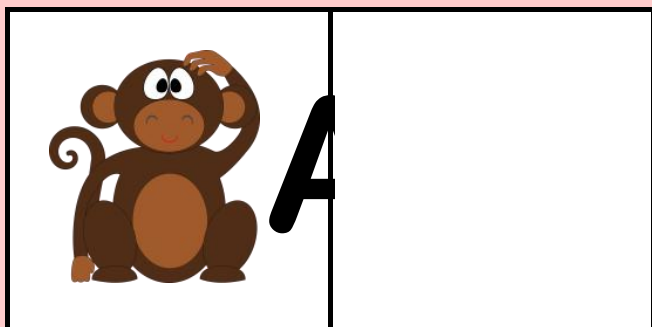

Find to ord i hver boks, der starter med samme vokal. Sæt ring.
